

REED COLLEGE OFF-CAMPUS PROGRAMS
Student Health Needs Assessment form

Please **complete the form below.**

Call the Health and Counseling Center (HCC) to **schedule an interview for “Study Abroad.”** You will meet with an RN or NP to review this form. Please check your specific program’s website for **any forms** that must be completed by a healthcare provider; some require a **physical exam (bring the form with you)**. You will likely need to schedule a separate appointment for an exam.

Please make sure you have provided the HCC with an updated list of all of your **immunizations**. We do have routine vaccines available at cost but not all “travel vaccines.” Check the CDC website <https://wwwnc.cdc.gov/travel/destinations/list> to destination.

Please know that if you study in a country with a high prevalence for tuberculosis (TB) we will require a medical visit upon your return to campus for **TB screening**.

If specific health needs exist, or if there are unanswered questions regarding your health needs or the availability of resources at your program’s site to accommodate your needs, **further assessment** with medical and/or a psychological providers will be scheduled. An action plan will be made so that you have a clear idea of the issues that need to be resolved before the HCC can “sign off” on your application. You and the provider will sign the form which then remains in your health record.

Please be aware that this process can require multiple visits. Start the process as soon as possible.

Our goal is to assist you in having a great experience in your program by helping you be as prepared as possible from a health perspective!

(Please note that Reed College cannot guarantee your health or safety. While the College will attempt to assist you in understanding the risks and resources available, it cannot be expert on the conditions in the various locations that students may visit while overseas. You should take whatever additional steps you deem necessary or appropriate to assure your health and safety.)

Please complete the questions on the other side of this sheet:

Student’s name: _____

Reed College Off-Campus Study programs/ Student Health Needs Assessment form

- 1.** What illnesses or problems (physical, psychological or emotional) have you had during the past 2-3 years for which you have sought professional medical and/or psychological attention?

- 2.** What treatment are you currently receiving for the above issues? Include physical therapy, counseling and other provider visits.

- 3.** List medications are you taking and who prescribes them for you.

- 4.** Do you have any anticipated health needs while you are away?

I have answered these questions to the best of my knowledge.
