

WELCOME TO REGISTRATION

PREPARING FOR ADVISING & REGISTRATION

Before you arrive on campus

- ▶ Read through the [Academic Catalog](#) – it includes course listings by department with descriptions and prerequisites that need to be taken for advanced courses. The catalog also contains academic policies and all degree and major requirements.
- ▶ Look through the [Schedule of Classes](#) – it includes the class meeting times/locations and instructor's name. Each class links to the Academic Catalog with course descriptions.
- ▶ Know the results of your AP or IB exams. [Placement exams](#) are offered over the summer. Exam credit and/or placement exams may place you out of specific courses or prerequisites.

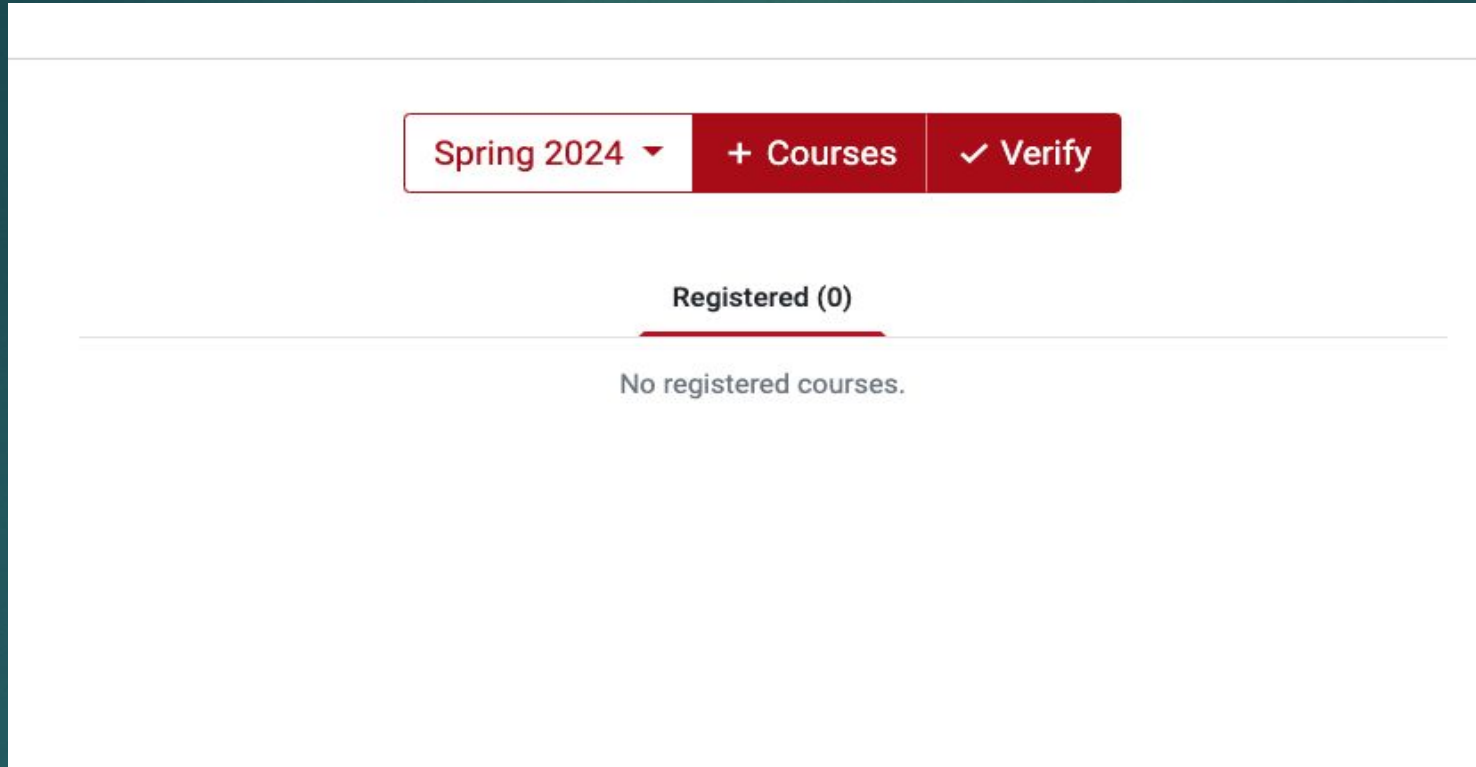

Tips & Strategies for planning your schedule

- ▶ Some majors require you to get started in that department right away. See sample schedules organized by major in the [Advising Handbook](#).
- ▶ Explore the liberal arts and find courses to fulfill Reed's [Group Requirements](#).
- ▶ Use the [Schedule Planner](#) to have second and third choice courses ready in case a class are full. If a class you want is full, you can add yourself to the course's waitlist – but also register for a back-up.
- ▶ Plan to take Physical Education classes – they are a degree requirement.

JAN 16 - Meet with your Advisor

- ▶ Complete the [Schedule Planner](#) to support your conversation with your Academic Advisor. Based on your conversation, you may want to make changes to your course selections.
- ▶ Remember to get your 6 digit SOLAR Registration PIN from your advisor. You will not be able to access SOLAR (Reed's registration system) without it.
- ▶ Register at SOLAR.REED.EDU
- ▶ SOLAR registration remains open until January 18.

Click + Courses to begin.

Click **Verify** to logout. You can return to make changes. SOLAR closes at 5:00pm on January 18.

× Add Courses for **Spring 2024**
