### Bring this completed form to your advising appointment

Write in the courses you wish to take below. Remember to include all labs, P.E., lectures and conference components when necessary, and include year-long classes in both semesters. If you find that a class is full or conflicts with another, have an alternate ready. For approved *irregular* course registrations such as a time conflict or class level restriction, the instructor can enter an electronic override that allows you to register through SOLAR. If you have the instructor's approval to reduce the unit value of a course, use a separate add/drop form. You can bring a completed add/drop form with you when you register or submit it later to the Registrar's office in Eliot Hall 311.

Use this completed form when you register for classes on SOLAR.
