Introduction to Quantum Mechanics, 3rd edition
David Griffiths and Darrell Schroeter
Cambridge University Press

New Errata, January 13, 2025

- Page 196, footnote 76, line 2: erase "similarly measuring ... be up, and".

- Page 201, footnote 3, last line: "(2010)" $\rightarrow$ "(2012)".

- Page 303, second line after (7.69): ", but it still ... in j" $\rightarrow$ ". However, for given n *and* j (with $j < n - 1$) the two possible values of ℓ (namely, $j \pm 1/2$) still share the same energy".

- Page 346, Problem 8.15: erase "*Comment*: In situations ... Hund's first rule."

- Page 492, under "proton": add "finite size 313".
